- Any shortfall in the supply of our raw material or an increase in raw material costs or other input costs may adversely impact the pricing and supply of our products and have an adverse effect on our business.
- We operate in the electrical equipment industry which is a highly technical and regulated sector and if we fail to comply with the regulations prescribed or standards set by our customers, our business, results of operations, cash flows and financial condition could be adversely affected.
- Our Registered Office and Factory Unit I, from where we currently operate, are not owned by us. If we are unable to renew or continue the lease arrangements on commercially acceptable or favourable terms in the future, it may adversely impact our operations
- We rely on third-party transportation providers for all of our input materials and product distribution. Failure by any of our transportation providers to deliver our input materials and products on time or at all, could result in loss in sales.
- Negative Growth May Adversely Affect Our Business and Results of Operations
- Our business is dependant and will continue to depend on our manufacturing facilities, and we are subject to certain risks in our manufacturing process. Any slowdown or shutdown in our manufacturing operations or strikes, work stoppages or increased wage demands by our employees that could interfere with our operations could have an adverse effect on our business, financial condition and results of operations.
- The loss, shutdown or slowdown of operations at any of our facilities or the under-utilization of any such facilities may have a material effect on our results of operations and financial condition.
- Our company is engaged in the manufacturing of cables and conductors, a segment that forms an integral part of Engineering, Procurement, and Construction (EPC) activities and is inherently working capital intensive.
- Our business significantly relies on ongoing relationships with our customers, many of which are not formalized through long-term contracts. Additionally, we are an approved vendor for several State Electricity Boards, and any failure to maintain this approved status could negatively affect our revenue and profitability.
- We have had negative cash flows from Operating activities in the past and a consequent net decrease in cash and cash equivalents in some of the recent years.
